Legality & Ethics

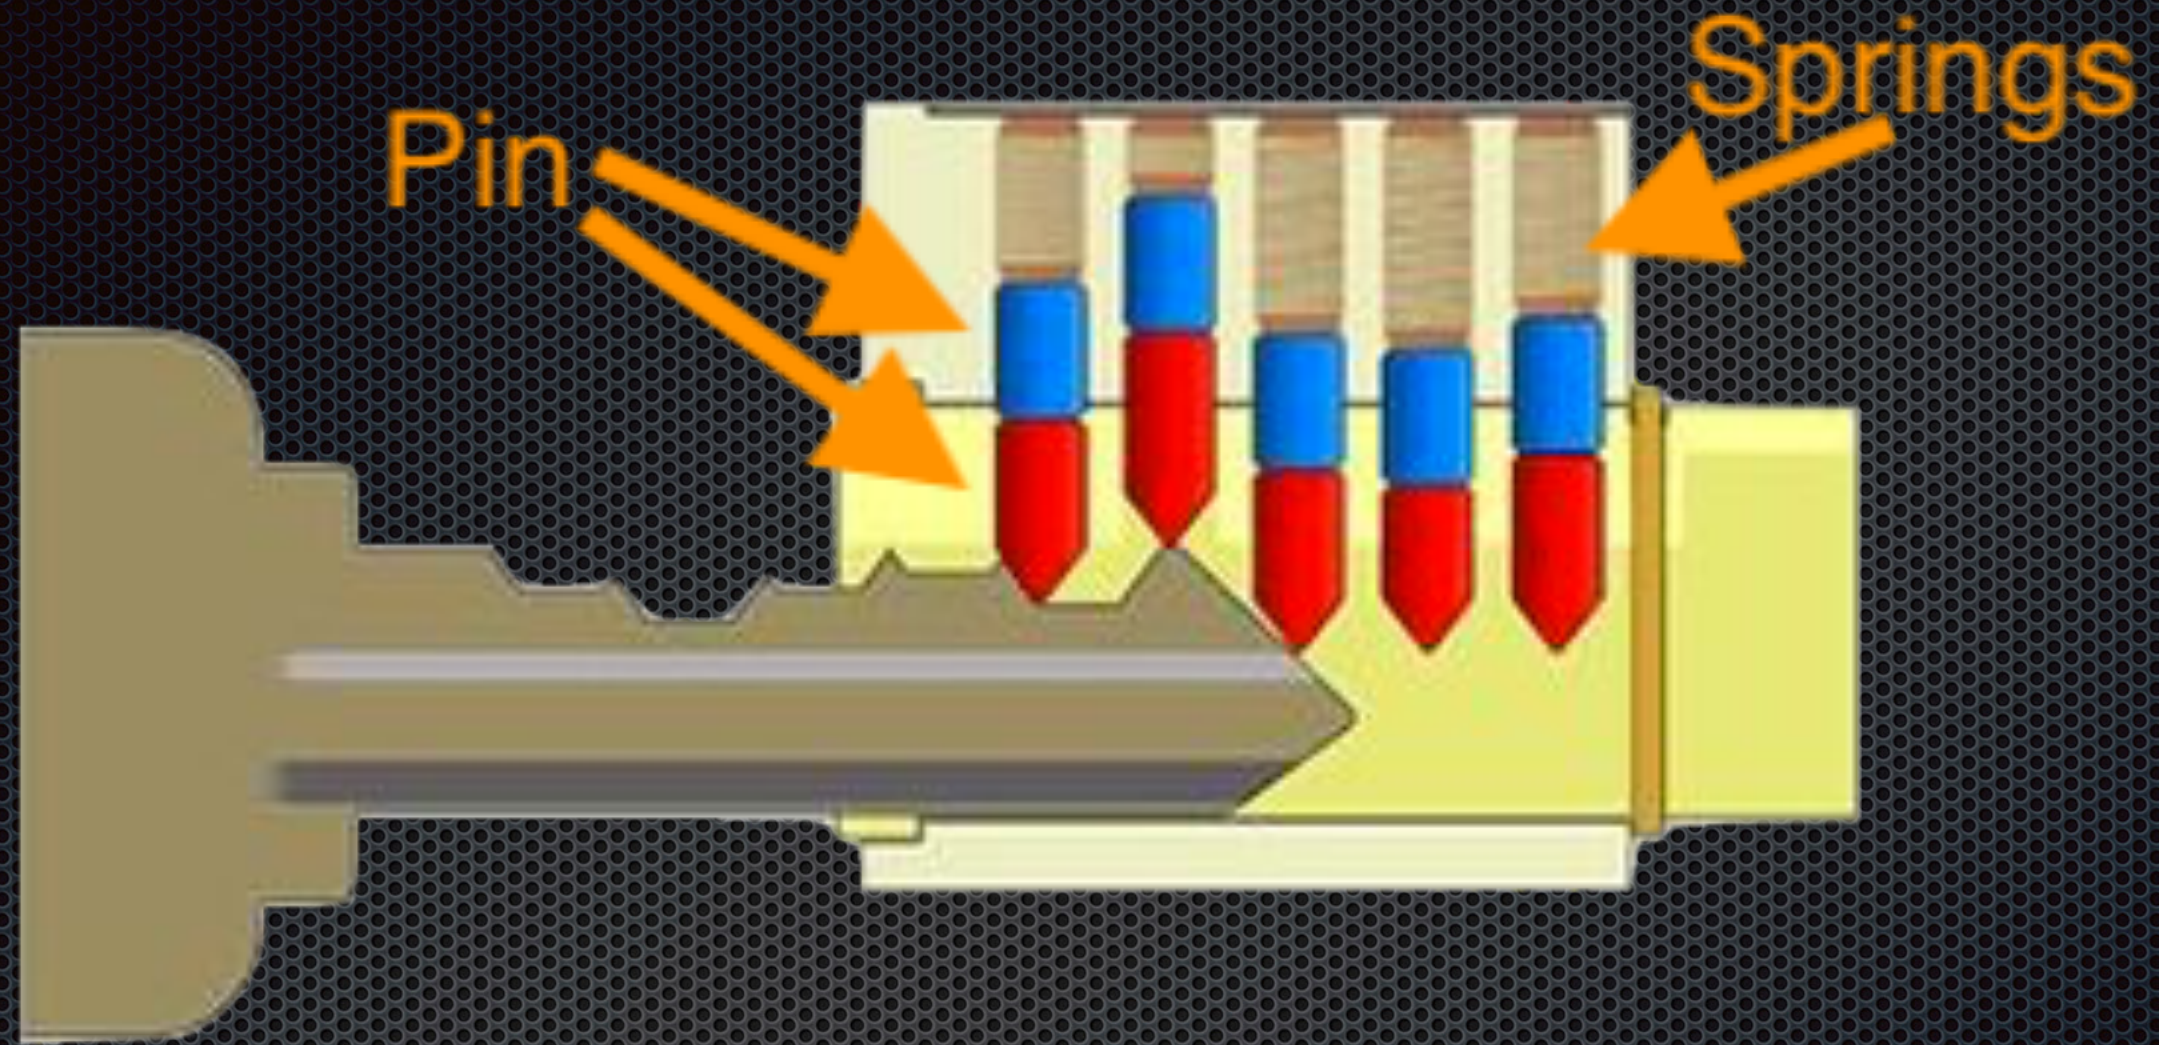

The law
varies by state.

Let's not get into ethical
subjectivism, okay?

Burglar's tools; possession. Any person who shall knowingly have in his possession any nitroglycerine, or other explosive, thermite, engine, machine, tool or implement, device, chemical or substance, adapted and designed for cutting or burning through, forcing or breaking open any building, room, vault, safe or other depository, in order to steal therefrom any money or other property, knowing the same to be adapted and designed for the purpose aforesaid, with intent to use or employ the same for the purpose aforesaid, shall be guilty of a felony, punishable by imprisonment in the state prison not more than 10 years.

—THE MICHIGAN PENAL CODE Act 328 of 1931

How A Lock Works

Tools: just the basics

- ✦ Torsion Wrench

- ✦ Pick

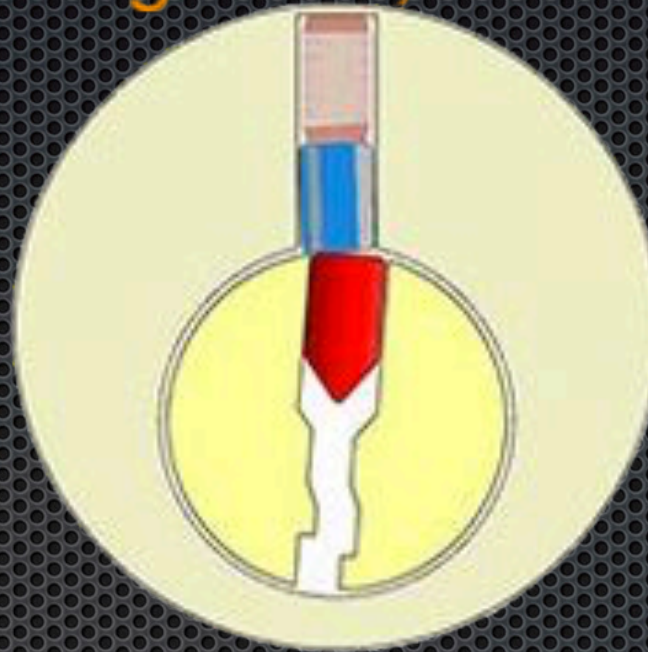

Two quick questions in preparation

- Where are the pins, on top or bottom?
- Which way does the barrel turn? Hint: clockwise :)

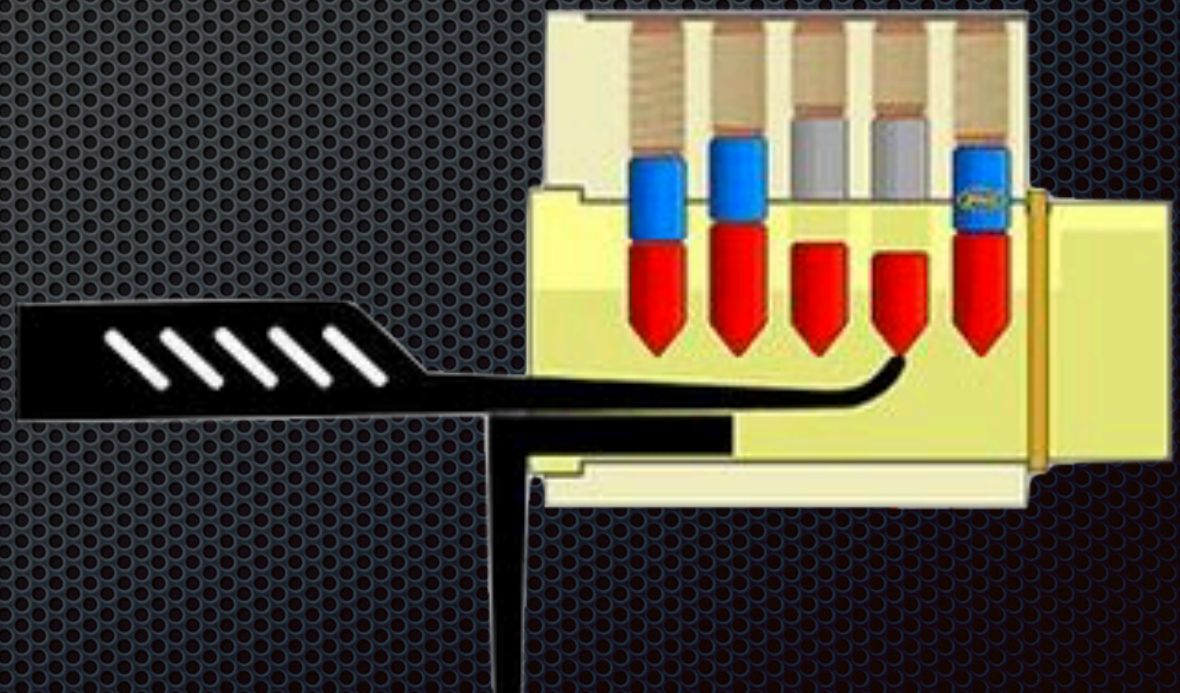

Lets do this!

1. Insert the wrench and pick
2. Set the pin by turning the lock slightly
3. Maintain pressure
4. Rake the pins with your pick

Hey, I picked the padlock, now what?

- Come Grab a Handcuff, key, and paperclip from the front

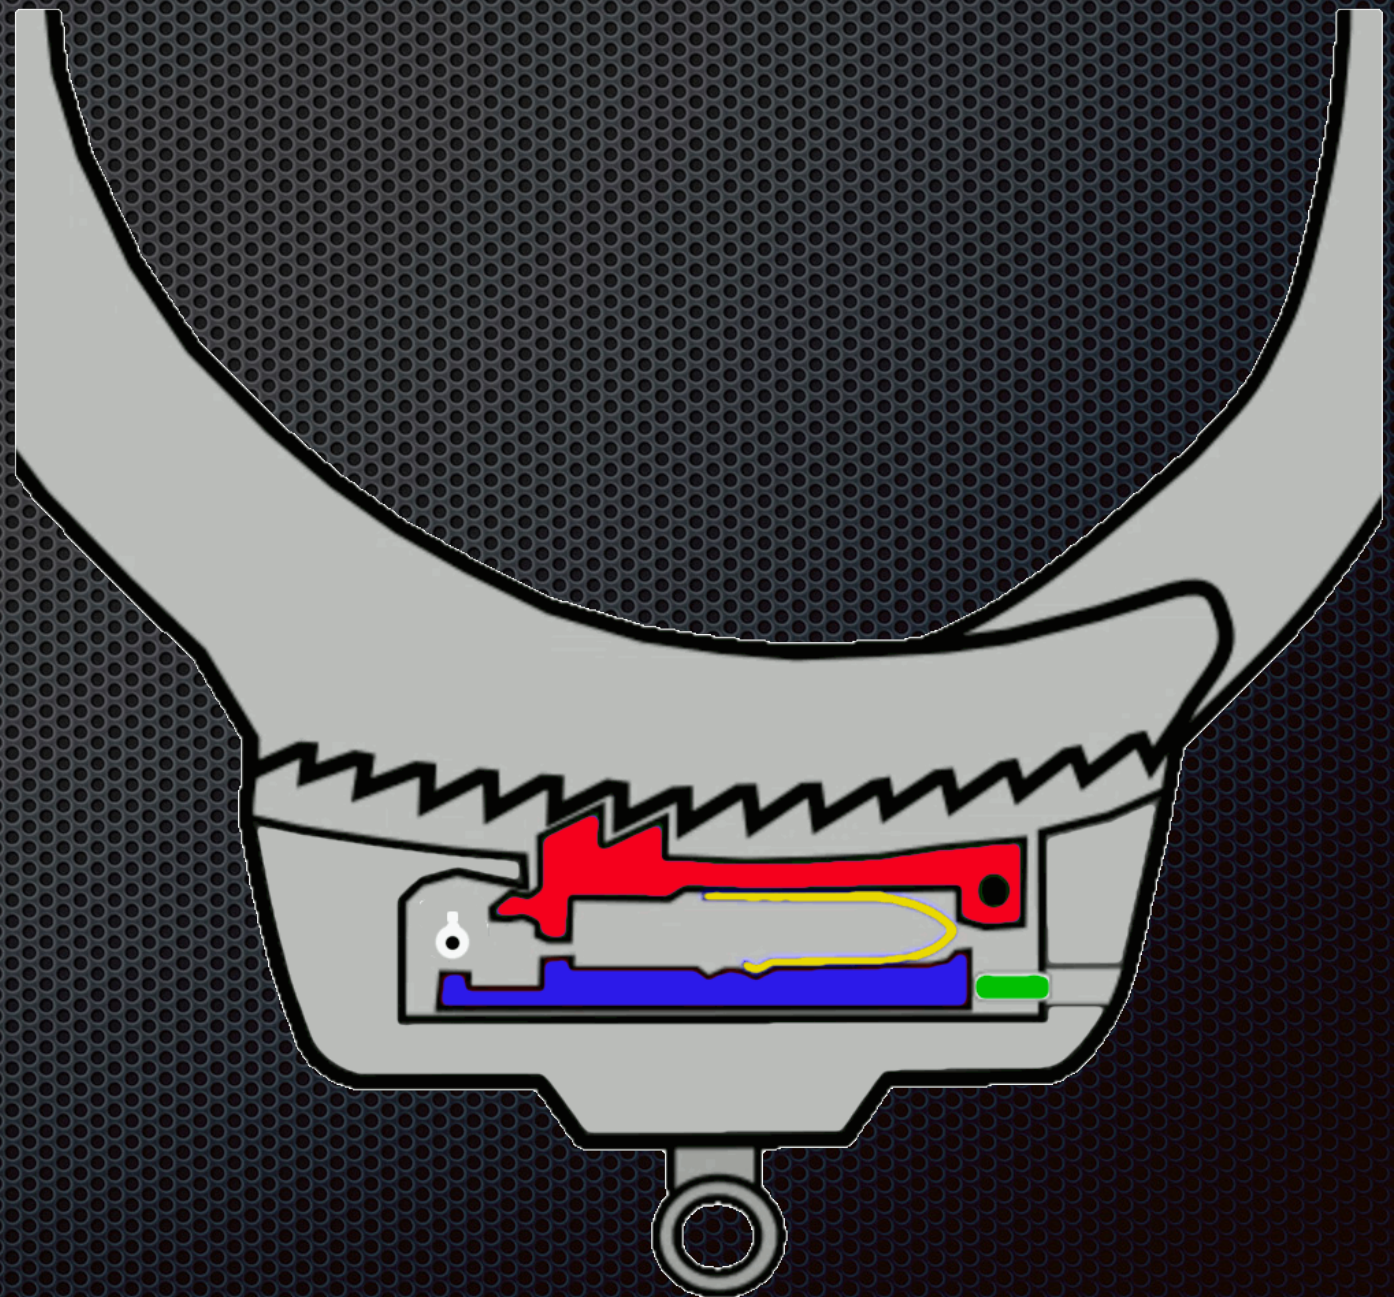

Handcuffs Parts

Key Image Here

Handcuffs have 2 locks

- ✦ The blue bar is pushed to the left to prevent the red bar from moving down to “double lock” the cuffs.
- ✦ The red bar (usually two pieces stacked) prevents the cuff from moving

Prepare your Paperclip

1. bend the paperclip
open
2. Insert in the keyhole
3. Bend the end of the
paperclip using the
hole for leverage

what the cops have:

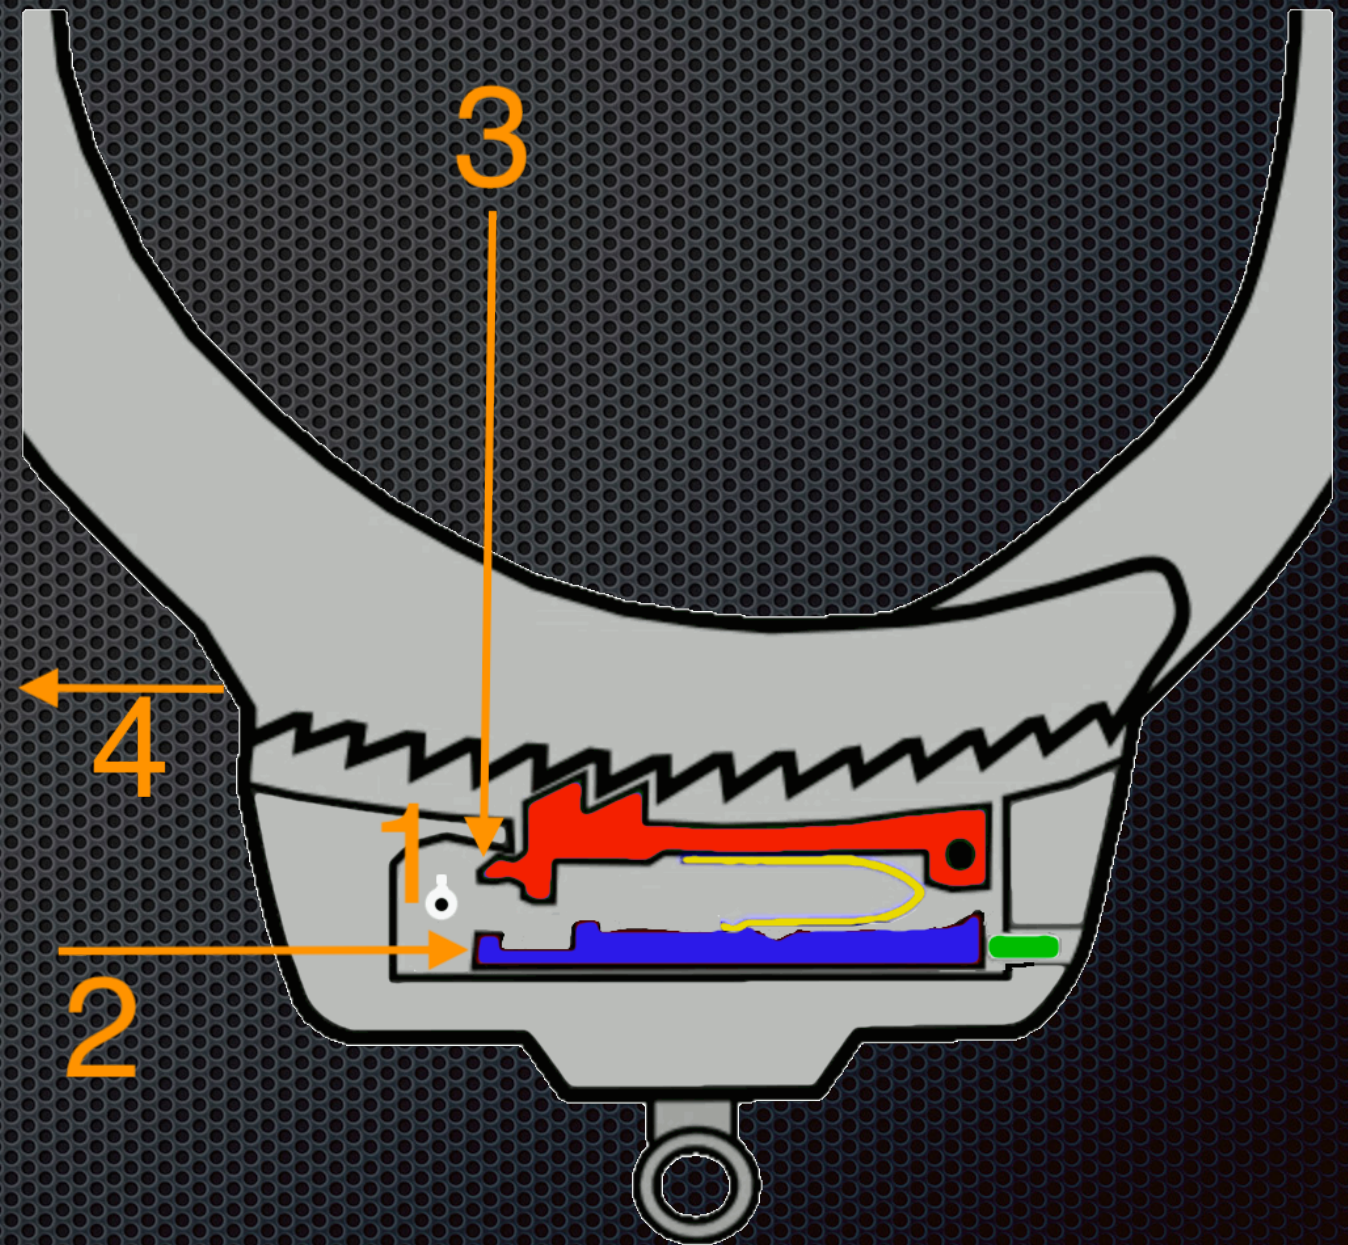

what we have:

Lets do this!

1. Insert paperclip in the keyhole
2. Rotate the paperclip counter-clockwise and push the blue bar to the right
3. Rotate the paperclip clockwise and push the red bar downwards
4. Pull the cuff open while the red bar is held out of the way

Conclusion

- ✦ Thank you everyone for coming and playing. If you have any feedback please let me know in person or via email.
- ✦ Please return the locks and tools to the bins on the way out so I can keep teaching this to others.
- ✦ Contact me at: mrjosephrock@gmail.com
- ✦ I'll have a few locks and tools with me as I wander the convention if you want another shot at it.
